

2023 Residential HVAC Rebates

Mass Save offers rebates for high-efficiency heating and cooling equipment.

- Save money on installation of high-efficiency, environmentally friendly equipment
- Energy efficient equipment saves you money on energy costs year round

The Fuel Company is part of the Mass Save Installer Network. We'll help you with the rebate process and handle all the paperwork. **Give us a call to learn more, 508.548.3030**

| Heat Pumps | | | | | |
|---|--------------------------|-------------------|--------------------------------|-------------------|--------------------------------------|
| Pre-existing Fuel Type | Equipment Type | Rebate Type | Efficiency Requirement | Rebate Amount | Enhanced Amount (Income Qualified)** |
| Electric Resistance, Oil, Propane, Natural Gas* | Air Source Heat Pumps | Partial-Home | Refer to MassSave.com/HPQPL | \$1,250 per ton | \$16,000 per home |
| | | Whole-Home | | \$10,000 per home | |
| | Air to Water Heat Pump | Whole-Home | | \$10,000 per home | \$16,000 per home |
| | Ground Source Heat Pumps | Partial-Home | ENERGY STAR® Certified | \$2,000 per ton | \$25,000 per home |
| Whole-Home | | \$15,000 per home | | | |

**Customers with pre-existing natural gas heating are not eligible for income qualified rebates.*
***Cape Light Compact moderate income qualified heat pump rebates differ from the amount listed. Customers are eligible for 80% of the installed cost of qualifying heat pump systems. See Terms and Conditions for full requirements*

| Boilers & Furnaces | | | | | | |
|--------------------|---|------------------------|------------------|------------------|-------------------------------------|------------------|
| Fuel Type | Equipment Type | Efficiency Requirement | Rebate Amount* | | Enhanced Amount (Income Qualified)* | |
| | | | Tier 1 | Tier 2 | Tier 1 | Tier 2 |
| Natural Gas | Hot air furnace with ECM | ≥95% AFUE | \$200 per unit | \$500 per unit | \$1,000 per unit | \$6,000 per unit |
| | Hot air furnace with ECM | ≥97% AFUE | \$200 per unit | \$1,000 per unit | \$1,000 per unit | \$6,500 per unit |
| | Hot Water Boiler | ≥95% AFUE | \$200 per unit | \$2,000 per unit | \$1,000 per unit | \$6,600 per unit |
| | Combined condensing boiler with on-demand DHW | ≥95% AFUE | \$1,200 per unit | | \$7,300 per unit | |
| | Combined condensing furnace with ECM and on-demand DWH | ≥97% AFUE | \$700 per unit | | \$7,300 per unit | |
| Oil | Hot air furnace | ≥86% AFUE | \$500 per unit | | \$4,500 per unit | |
| Propane | Hot air furnace with ECM | ≥95% AFUE | \$200 per unit | \$500 per unit | \$1000 per unit | \$4,500 per unit |
| | Hot Water Boiler | ≥95% AFUE | \$200 per unit | \$2,000 per unit | \$1000 per unit | \$4,500 per unit |
| | Combined condensing boiler with on-demand water heater | ≥95% AFUE | \$1,200 per unit | | \$4,500 per unit | |
| | Combined condensing furnace with on-demand water heater | ≥95% AFUE | \$700 per unit | | \$4,500 per unit | |

Customers replacing existing condensing Furnaces or Boilers are not eligible for higher incentive levels. If pursuing Tier 2 rebates, Pre-Verification is required prior to installation. See Terms and Conditions for full requirements

| Domestic Water Heating | | | |
|--|---------------------------------------|--|---------------------------|
| Fuel Type | Equipment Type | Efficiency Requirement | Rebate Amount |
| Oil, Propane, Natural Gas or Electric Resistance | Heat Pump Water Heater | ENERGY STAR Certified | \$750 per unit* |
| | Heat Pump Water Heater - Split System | | \$1,500 per unit* |
| | Solar Thermal Water Heater | | 20% of total install cost |
| Natural Gas | Storage water heater | ≥ .64 UEF Medium Draw ≥ .68 UEF High Draw | \$100 per unit |
| | On-demand tankless water heater | UEF ≥.87 | \$550 per unit |
| | Condensing water heater | UEF ≥.80 | \$400 per unit |
| Propane | Indirect water heater | - | \$300 per unit |
| | On-demand tankless water heater | UEF ≥.87 | \$550 per unit |
| Oil | Indirect water heater | - | \$300 per unit |

**Instant Savings applied at time of checkout from participating distributors, Lowes, and Home Depot.*

| Thermostats & Controls | | |
|-------------------------|-----------------------------|-----------------------|
| Product Type | Efficiency Requirement | Rebate Amount |
| Programmable Thermostat | 7-day programmable | \$25 per unit |
| Smart Thermostat | ENERGY STAR Certified | \$100 per unit |
| Integrated Control | Refer to MassSave.com/ICQPL | \$500 per indoor unit |
